

UBTECH®

Microwave Digestion

UNIVERSAL BIOTECHNOLOGY PRIVATE LIMITED

One Stop, Infinity Choices...

Introduction

UBTECH Microwave Digestion Systems are designed to provide rapid, safe, and efficient sample preparation for elemental and chemical analysis. Utilizing advanced microwave heating technology, these systems ensure uniform and complete digestion of a wide variety of sample types, significantly reducing preparation time while improving analytical accuracy.

Engineered with intelligent control systems and enhanced safety features, UBTECH Microwave Digestion instruments deliver reliable performance for modern analytical laboratories.

Model : UMDS-12; UMDS-18
Microwave Digestion System
12/18 Vessels

Model : UMDS-T6; UMDS-T8;
UMDS-T10; UMDS-T12

Microwave Digestion
System, 6/8/10/12 Vessel

**Model : UMDS-40
Microwave Digestion
System, 40 Vessels**

**Model : UMDS-6E; UMDS-8E;
UMDS-10E; UMDS-12E; UMDS-
16E; UMDS-20E; UMDS-24E;
UMDS-40E; UMDS-44E**

Microwave Digestion System
