

Washer Disinfector & Cleaners

UNIVERSAL BIOTECHNOLOGY PRIVATE LIMITED
One Stop, Infinity Choices...

Introduction

UBTECH Washer Disinfectors and Cleaners are designed to deliver high-performance cleaning and thermal disinfection for surgical instruments, labware, and medical devices. Built with advanced automation and user-friendly controls, they ensure consistent hygiene, reduce manual handling, and meet global infection control standards. Ideal for hospitals, laboratories, and healthcare facilities, UBTECH systems offer customizable cleaning cycles, energy efficiency, and long-term reliability — making them a smart choice for safe and sterile reprocessing.
